

project : BP Collins

 AVONDALE

**BP Collins**  
Sterling House  
Gerrards Cross

A fast-track programme which included the provision of a new office suite. Works consisted of the strip out/demolition of the existing floor including old radiator system and boiler. The new works included installation of a new VRV air conditioning system, and fresh air intake for the office area. Installation of Komfort System office partitions supplemented with KM3 storage wall. New lighting and ceilings were provided along with small power and Cat 5 cabling. A new security system and door entry system was also installed. The range of office furniture came from Desking System Ltd.

Project handed over within timescale and resulted in Avondale receiving another instruction for BP Collins Employment department.
